Are you prepared to defend yourself and your loved ones? We take measures to be safe and prepared for dangerous things everyday. We wear a seatbelt in cars to protect us should we get into a wreck. We keep fire extinguishers in our homes should it catch on fire. Does this mean we have a morbid wish for terrible things to happen? Are we looking for trouble? No... We are PREPARED just in case!

In today's society, crime is simply a way of life. Criminals are prepared to make a quick dollar through robbery and assaults, even taking a life if necessary. It's not personal for them, really it's not! It's just what they do. They do not see you as a Mother or Father of young children with a long life ahead of you. You are simply an obstacle between them and that which they seek. If they feel you have something they want, they will take it by any means necessary. Simply put, anything that happens in the process is just collateral damage. Do you accept being defenseless?

Are you prepared to respond to violence with equal or greater violence in a life and death situation? Have you thought of the legal ramifications of Deadly Force?
